

BACH12-1200, BACH24-1200

Battery chargers

Features

- 2 versions
- Fast Charging.
- LED Charging Indication.
- AC or DC input can be used (refer to the block diagram).

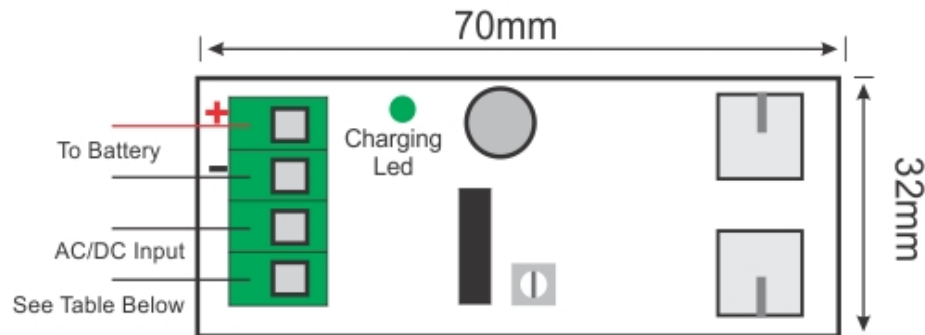

Application

- Charging back-up 24 or 12 Volts batteries

Description

The BACH12-1200 is for a 12 Volt battery and the BACH24-1200 is for a 24 Volt battery. These chargers are designed to charge batteries with up to 1.2 Amps. Batteries can be connected to operate in cycle use or as backup. Please check battery specifications for charging voltages when used as required. The green LED on the charger indicates the charging status. When the LED is ON the battery is being charged.

Block Diagram

Version	12V	24V
AC	11.8-15V	23-28V
DC	17-24V	33-35V
